

# What Cozi families are saying

I am so happy and pleased that I signed up for Cozi. I use it all the time, and love how easy it is to use. It's so rare that something free can provide so much value. Thank you! – **ALLISON**

Brand new to Cozi and I LOVE it so far!! Downloading the school calendar is AWESOME!! – **STELLA**

I just found your website today, and I LOVE IT! It is EXACTLY what I've been looking for for months! I have not been able to find any website or software that does everything Cozi does. I especially LOVE that I can retrieve any of my information with my cell phone. – **AMY**

I just ran to the grocery store and shopped off my list from Cozi right on my phone... Cozi is the best! Where would I be without Cozi! – **SARAH**

I truly love Cozi, especially the family journal! I love that I can just jot down a moment any time of the day and I have it forever! I use the calendar to organize, and I adore the collage feature to showcase pictures and reminders, but my all-time favorite feature is the journal! Thanks for a great service! – **KAREN**

I really enjoy Cozi because we can check the calendars from our phone, and we have the ability to print off each person's calendar to put up on the board at home. – **BETH**

Let me first say that I love Cozi. My wife was adamant about not using an online calendar. I was finally able to coax her into using Cozi on a trial basis, and she too has fallen in love with it. It's an easy, user-friendly program that makes planning so much easier. – **MIKE**

My wife and kids love this tool and started using it immediately. It has already saved us a lot of time and increased our communication. – **STEVE**

Cozi is the best tool my family has. I love that my kids can send me texts any time they want, and the lists are fantastic. Cozi keeps us so organized! Thanks! – **ANN**

I have a "blended" family with two boys in six different sports, so I really appreciate Cozi, especially since I can allow the "other halves" of the family to view the calendar and schedules, as well as send them reminders! – **CINDY**

I am a huge fan of Cozi. At my office I use Outlook and sync it with the family calendar. I have tried many online calendars and this works the absolute best with Outlook! I love every feature. – **CHRIS**
